- in-app privacy settings
- device permissions
- in-app ratings pages
- marketing opt-outs

You may also request that YAWPa provide you with explanation, copies or correction of your data.

A. PRIVACY SETTINGS

The Privacy Settings menu in the YAWPa rider app gives users the ability to set or update their location and contacts sharing preferences, and their preferences for receiving mobile notifications from YAWPa. Information on these settings, how to set or change these settings, and the effect of turning off these settings are described below.

- **Location Information**
 - YAWPa uses rider's device location services to make it easier to get a safe, reliable ride whenever you need one. Location data helps improve our services, including pickups, navigation, and customer support.
 - You may enable/disable, or adjust, YAWPa's collection of rider location information at any time through the Privacy Settings menu in the YAWPa app, or via the settings on your mobile device. If you disable the device location services on your device, your use of the YAWPa app will be affected. For example, you will need to manually enter your pickup or dropoff locations. In addition, location information will be collected from the driver during your trip and linked to your account, even if you have not enabled YAWPa to collect your location information.
- **Share Live Location (Riders)**
 - If you have enabled the device location services on your mobile device, you may also enable YAWPa to share your location with your driver from the time you request a ride to the start of your trip. This makes it easier for your driver to pick you up.

B. DEVICE PERMISSIONS

Most mobile platforms (iOS, Android, etc.) have defined certain types of device data that apps cannot access without your consent. And these platforms have different permission systems for obtaining your consent. The iOS platform will alert you the first time the YAWPa app wants permission to access certain types of data and will let you consent (or not consent) to that request. Android devices will notify you of the permissions that the YAWPa app seeks before you first use the app, and your use of the app constitutes your consent.

C. RATINGS LOOK-UP

After every trip, drivers and riders are able to rate each other, as well as give feedback on how the trip went. This two-way system holds everyone accountable for their behavior. Accountability helps create a respectful, safe environment for both drivers and riders.

Your rider rating is available in the main menu of the YAWPa rider app.

Your driver rating is available in the Ratings tab of the YAWPa Partner app.
